sunshine.co.uk Affiliates Area

Hi,

We've added an **affiliates area** to **sunshine.co.uk**.

- Latest files and feeds
- Search Box Wizard
- Default Banners
- Offer Banners
- more to come...

We've also added a **blog** to keep you up to date with the latest happenings at **sunshine.co.uk** and you've got to try our **search box wizard**, which is very cool!

The **offer banners** are also something we're feeling pretty smug about. Select an offer banner for a country/resort of your choice and it **automatically updates every few hours** to show the best prices currently available for holidays/hotels!

You can now pick up **RSS feeds** of offers for all destinations, last minute, all inclusive, family holidays and offers by month.

Create an **HTML newsletter** in a few easy steps, using the latest offers and deals available from sunshine.co.uk with your affiliate links already embedded in the code.

Look forward to hearing any feedback,

Chris C

Just had a quick look around and first impressions are WOW! There is a lot there to take a look at but this is an excellent example of how to run a programme. Why can't there be more like this?

Programs like sunshine.co.uk on Affiliate Future have holiday search boxes that you can integrate with just a few lines of code.

Really liking the updating banners. Normally it can be difficult to find one just for a specific country but these destination banners are great. I can see sunshine.co.uk being everywhere this year.

I'm not a current affiliate for you but I'm interested in those RSS feeds. I might have a play around with it over the weekend.
